

## CHS MATH LAB SCHEDULE 2017-2018

The CHS math lab is open twice a week from 2:15 – 3:15. The lab is intended for students to get additional guidance with assignments, work on weak mathematical skills, and provide other opportunities to improve math skills. Students are asked to look for assistance from their classroom teacher as a primary source, but we also want to provide other opportunities for students to get additional help if they need it. For more information, please contact Bobbie Simoni via e-mail at [simonib@rsd407.org](mailto:simoni@rsd407.org).
